

THE TRUE DEMOCRAT.

JOHN G. COLLINS, Publisher.

PUBLISHED EVERY FRIDAY MORNING.

Regular Session City Council.

The City Council met in regular session Thursday, September 13th, and upon being called to order by the president the roll was called and the following members answered to their names:

President McIntosh, Messrs. Chittenden, Edmondson, James, Lowry, Saxon and Spiller.

A quorum present.

The minutes of the meeting of August 9th, 1906, were read and approved.

Reports were submitted by the several city officials, and by the board of managers of the city electric light plant, which said reports were read and ordered filed.

Mr. Spiller, on behalf of the Finance Committee, reported that said committee had gone over the first copy of the city assessment rolls for the year A. D. 1906, as prepared by the city tax assessor, and recommended that the assessment for the year A. D. 1906, as made by the city tax assessor be approved by the city council. Upon motion of Mr. Lowry, said motion being duly seconded and unanimously adopted, the report and recommendation as made by Mr. Spiller on behalf of the Finance Committee by the City Council.

It was directed that the city clerk give due and proper notice by publication in a newspaper of the city of Tallahassee, Florida, that the City Council would sit at the council chamber as a Board of Equalization on Thursday, October 25th, A. D. 1906 at 7:30 p. m., and for all persons wishing to appear before the City Council, sitting as such Board of Equalization in connection with the assessment of their property for the year 1906 to govern themselves accordingly.

It was directed that the city clerk give due and proper notice by publication in a newspaper of the city of Tallahassee, Florida, of the intention of the City Council to pass an ordinance at a meeting of the City Council to be held at the council chamber on Thursday, October 25th, A. D. 1906, levying a tax of 3 1/2 mills for water and fire protection.

Mr. Saxon, chairman of the Finance Committee, and to which said committee had been referred matters in connection with water works for the city of Tallahassee, stated that as yet he had received no answer to his last letter to the Water Works Company bearing on this subject.

President McIntosh brought before the Council matters relative to having the sidewalks of the city put in such condition that free mail delivery would be granted by the U. S. government, and after consideration of the matter it was directed that the Street Committee be authorized to make the best arrangements that could be made to have the work done.

A man giving his name as F. F. Ezell appeared before the Council and stated that about four weeks ago about 7 or 8 o'clock in the evening, he fell in a ditch on McComb street, hurting his side very badly and was laid up for some time. He stated that he was assisted in getting out of the ditch by Mr. Ellis and Judge Taylor and that he had been attended by Dr. Palmer, and stated further that he thought the city ought to give him some help. The ditch in question was dug by Messrs. Phillips and Simpson, in putting in sewerage pipes, and Mr. Simpson, who was present at the meeting, stated that the ditch had been properly filled in after their work was completed, but must have been washed out by the late heavy rains. The entire matter was referred to the Street Committee of the Council for investigation and report to the Council.

Mr. Simpson, appeared before the Council and stated that they had a closet known as the Sy-Clo that did not need to be back vented and asked that the Council allow its use without being back vented. The Council took the position that no closets of any kind could, under the existing city ordinances, be put in without being back vented, but the matter was referred to the city sanitary engineer for investigation and report to the Council.

A report was submitted signed by Mr. J. D. Cay, a member of the City Council, relative to the investigations that had been made as to the best manner in which to obtain satisfactory and permanent results from septic tank No 2 of the City sewerage system. In connection with this matter Mr. James, chairman of the Sanitary Committee, stated that Mr. F. S. Henry had stated that he thought it would cost about \$300 to do the necessary work. After a full discussion of this matter it was finally referred to the Street and Sanitary Committees, jointly, to have the necessary work done to the best advantage of the city.

The following communication was presented and read:

Tallahassee, Fla., Sept. 11, 1906.
The Hon. Members City Council, Tallahassee, Fla.:

Gentlemen—The Tallahassee Volunteer Fire Company requests your attendance at its fourth anniversary reception, September 24, 1906, at the fire station, and would be pleased to have you honor us with your presence on that occasion from 8 to 10 o'clock.

Respectfully,

J. G. HAMLIN,
Chief Fire Department,
G. E. LEWIS, Secty.,
A. C. SPILLER,
O. M. JACOBIE,
Committee.

Upon motion of Mr. Saxon, said mo-

tion being duly seconded and unanimously adopted, the invitation extended by the Tallahassee Volunteer Fire Company was accepted by the Council, and the city clerk was directed to inform the fire company of the acceptance of its invitation and to express the thanks and appreciation of the Council therefor.

"Annual report of the chief of the Tallahassee fire department from March 2, 1906, to February 28, 1906," was presented, read and ordered filed.

The "Fourth annual report of the secretary and treasurer of the Tallahassee Volunteer Fire Company" was presented, read and ordered filed.

The following resolution was presented by President McIntosh and adopted by the Council by a unanimous vote:

Resolved, That the thanks of the City Council are eminently due and are hereby tendered to the committee on fire department, chief of fire department and to the firemen for the splendid work accomplished along all lines during the past year, as shown by the very satisfactory results made to the City Council.

Resolved further, That we deem it our duty to say that we appreciate the patriotism shown by the young men of the city who have so faithfully served, under all circumstances, as firemen of the city of Tallahassee, very often to the sacrifice of their own business and professions, without the hope or expectation of any adequate compensation.

Mr. Perkins, the city sewerage engineer, reported that he had, under the direction of the sanitary committee, made a test of the Weedicide recently purchased by the city, and that he did not consider that the results therefrom had been satisfactory.

The levy of a per capita street tax was brought up for the consideration of the Council by Mr. Lowry, and after discussion thereof, Mr. Saxon made a motion that the matter be referred to the committee on laws and ordinances for their investigation and report. The motion of Mr. Saxon was duly seconded and unanimously adopted by the Council.

The question of insuring the city fire department horses was brought up for consideration of the Council by Mr. Spiller, and after discussion of the matter it was finally, upon motion of Mr. Chittenden, said motion being duly seconded and unanimously adopted, directed that the five horses of the fire department be insured for the sum of \$200 each, the cost of insurance to be \$5 each.

Mr. Spiller, chairman of the fire department committee, stated that the fire department was in need of more hose, and stated that the same could be purchased now, to be paid for in eighteen months, without interest. After consideration of the matter it was, upon motion of Mr. Saxon, said motion being duly seconded by Mr. Chittenden and unanimously adopted by the Council, agreed that the fire department committee be authorized to buy not exceeding 800 feet of hose for the Tallahassee fire department.

The report submitted by the city treasurer showed the following cash balances on hand September 13, 1906:

General revenue fund	\$1,436.21
Water and fire fund	536.97
Interest fund	599.28
Cemetery fund	339.05
Sewerage fund	1.00
Total	2,912.51

Warrants aggregating \$1,549.75 were drawn in payment of accounts presented and approved.

An account from Joseph Duncan, for coffins furnished to paupers, was presented and the city clerk directed to return the account and ask that the orders for the coffins referred to in said account be attached to the account.

There being no further business to consider, Council adjourned.

Torture by Savages.

"Speaking of the torture to which some of the savage tribes in the Philippines subject their captives reminds me of the intense suffering I endured for three months from inflammation of the kidneys," says W. M. Sherman, of Cushing, Me. "Nothing helped me until I tried Electric Bitters, three bottles of which completely cured me." Cures liver complaint, dyspepsia, blood disorders and malaria; and restores the weak and nervous to robust health. Guaranteed by all druggists. Price 50c.

General Robert E. Lee

was the greatest General the world has ever known. Ballard's Snow Liniment is the greatest Liniment. Quickly cures all pains. It is within the reach of all. T. H. Pointer, Hempstead, Texas, writes: "This is to certify that Ballard's Snow Liniment has been used in my household for years and has been found to be an excellent Liniment for rheumatic pains. I am never without it." Sold by all druggists.

Mr. O. H. Kelly and Miss Grace Kelly of Carrabelle were registered at the Leon Wednesday.

The True Democrat proprietor spent a most pleasant day last Sunday at Sopchoppy, the guest of Mr. and Mrs. T. J. Brown, at whose home after church services we enjoyed an excellent dinner along with several other guests.

Mr. Guerry Strong left for Macon Sunday morning to accept a position in that city. His many friends regret that he is to be in Tallahassee no more.
